'N' Component allowing connecting of grid panels to trusses

The 'N' Component allow to connect the top of the nog of wall panel to trusses that may not land on the 1000mm grid. This is simply a 4 hole plate and a nut welded to the centre, the 4 holes get screwed down to the nog with 4 x 14-10x25 Hex Tek Screw to the top of the panel nog in desired position and a M12 x 220 threaded rod.
